

EMPEE ENGINEERING CORPORATION

M. S., S. S. & C.S. Flanges as per Various International Dimensional & Material Codes & Standards.

**CNC Oxy Fuel Profile Cutting & in M.S. & C.S. Plates
with Capacity of 3000mm X 6500 X 250 mm Thickness
&**

**Conventional Profile Cutting using Templates & Pug Cutting machine of thickness up
to 250 mm**

Stockists / Dealers of M.S. Plates in Variety of Width Length & Thickness

Office and Works: 12/8, Lakdi Bunder, Darukhana, Reay Road, Mumbai – 10

Tel: 23708690 Telefax: 23770144

E-Mail: empee_ecc@hotmail.com Website: www.empeeengineering.com

We are a multi product engineering enterprise, catering to the needs of variety of Engineering Industries since 1987.

Listed below are the product & other technical details

Our Products

● Flanges:

We offer quality M.S., C.S., S.S., & Alloy Steel Flanges; we specialize in Forged & Plate Flanges ranging from ½” NB to 160” NB in various standards. We also manufacture special non-standard Flanges as per Clients’ Specifications and drawings at very competitive rates.

We can offer Flanges under Stage Wise inspection and we also undertake jobs under Third Party Inspection Agencies.

➤ Types of Flanges:

- | | | |
|-------------|---------------|---------------------------|
| ● Slip-On | ● Weld Neck | ● Threaded |
| ● Blind | ● Collar Type | ● Tongue & Groove Type |
| ● Lap Joint | ● RTJ Type | ● Flanges as per Drawings |

➤ Dimensional Codes for Flanges:

- | | | |
|----------------|-----------|---------------------------|
| ● ANSI B 16.5 | ● BS 10 | ● IS 1538 |
| ● ANSI B 16.47 | ● BS 4504 | ● IS 6392 |
| ● API | ● DIN | ● MSS SP 44 |
| ● AWWA | ● JIS | ● Clients’ Specifications |

➤ Our Speciality in Flanges:

- Large Diameter Fabricated Flanges up to 3500mm Dia.
- Flanges Made out of Segments.
- Flanges with SS Lining.
- Non-Standard Flanges as per Drawings.
- Flanges Made from Graded Raw Materials.
- Plate Flanges under Third Party Inspection.

● Flame Cut Profiles & Shapes:

➤ CNC Profile Cutting:

Very Accurate PRECISION FLAME CUTTING & High Quality Profiles cut using CNC Profile Cutting Machine

- Plate Sizes up to 3000 mm Width, 6500 mm Long 250 mm Thick.
- Sharp & Smooth Contour.
- Fast Production.
- Raw Material As Per Clients' Requirement
- Accuracy ± 1 mm.

➤ Conventional Profile Cutting

We Offer Various Shapes Using Conventional Profile Cutting & Pug Machines & Templates.

- Squares
- Circles
- Rings
- Strips
- Profiles as per Templates

➤ Raw Materials Used For Profiles.

An extensive range of carbon steel plates and slabs. Special sizes in length width and thickness can be arranged to suite customers' requirements, with full traceability to test certificates.
